**Some British  
Babies reared on Mellin's Food**

If seeing is believing, this random selection from the thousands of photos we hold of British Babies reared on Mellin's Food should convince every living mother.

One of these was "A poor little baby"; the mother of another says: "At 12 months my son was a skeleton, Mellin's Food brought him back to life and health"; the parents of still another wrote: "We were afraid he would never be reared"; and in each and every case Mellin's Food brought strength and happiness and health. Mellin's Food, mixed with fresh cow's milk, provides the exact equivalent to healthy mother's milk. Starch-free. Prepared instantly, no cooking. Suited to the needs of even a new-born child.
